DETAILED ACTION

Claim Objections

1. Claims 1,6,10 and 11 are objected to because of the following informalities: See Examiner comment below. Appropriate correction is required.

In claims 1, line 10, claim 6,line 10,claim10, line 13 and claim 11, line 12, before "memory" should insert –a--..

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 1-5 and 10 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claims 1-5 direct to information on a medium. Since the information do not interact or impart to any software and hardware structural components to perform a certain function that is processed by a computer, the information on the medium do not make themselves the statutory. See MPEP 2100.

Claim 10 direct a program without specifying the location of the program on which the program is read and executed by a computer to perform the functions in the claim. See MEPE 2100.

Allowable Subject Matter

4. Claims 6-9 and 11 are allowed.
